1. We crossed 2 million users in April right after clearing one million in March (attached).
2. The Winklevoss' were Tweeting about YouTube all week (e.g. [here](#)). We continue to be most commonly mentioned, and are meeting next week.
3. We also are meeting with Founders Fund, thank you Russ.
4. We got a mention by Andy Baio (CTO Kickstarter) [in this article](#) on Jay Z deep fakes.
5. The price and volume have continued to grow since last week, and we resumed some light selling.
6. We are tentatively approved for the PPP money (not received, but told by bank)
